CONTENTS

Number 1. March, 1936

The relation of the foster home environment to the mental development of children placed in infancy. Harold M. Skeels.....	1
An experimental investigation of a method of overcoming children's fears. Francis B. Holmes.....	6
Experiments in the measurement of attitudes toward children: 1899-1935. Ralph M. Stogdill.....	31
An experiment in the study of individual development. Elise Hatt Campbell and Marian E. Breckenridge.....	37
The development of the primary drives in infancy. Katherine M. Banham Bridges.....	40
An anthropometric measuring board. Thomas F. Carey.....	57
Physical proportions of the human infant. Harold D. Carter and Ruth H. Krause.....	60
A note on Z-scores as a technique for treating serial measurements of electrical skin resistance. Marion A. Wenger and Orvis C. Irwin.....	69
A bibliography of baby biographies. Wayne Dennis.....	71
A graphic age conversion scale. Dorothea McCarthy.....	74
Committee for the study of suicide.....	76

Number 2. June, 1936

Unpleasant dreams in childhood. Josephine C. Foster and John E. Anderson...	77
Variations in emotional responses of children. Buford Johnson.....	85
An analytical study of child learning. Virginia L. Nelson.....	95
Height, weight, and age tables for homogeneous groups--with particular reference to Navaho Indians and Dutch Whites. Morris Steggerda and Paul Densen.....	115
Modes of thought in High School pupils. Herman Asch.....	121
Motivation of young children: Further studies in success and failure, praise and blame. Harold H. Anderson.....	125
The development of concepts--a study of children's drawings. Sina M. Mott.,	144

Number 3. September, 1936

Interpolation formulae for the growth of the human brain and its major parts in the first year of postnatal life. Richard E. Scammon.....	149
Use of the biographical method in the study of motor coordination. E. B. Hurlock and G. McHugh.....	161
A continuous recorder for obtaining synchronous curves of physiological responses to stimuli in human subjects. N. W. Shock.....	169
An experimental cabinet for physiological studies of emotions. Harold E. Jones.....	183
"Behavior maturity" of children of nursery school age. Walther Joël.....	189
Interrelations between the preschool child's behavior and certain factors in the home. Berta Weiss Hattwick.....	200
Preferences of preschool children for specific geometric figures. Florence Jennings.....	227

Number 4. December, 1936

The method of administration of the Rorschach ink-blot test.	
Marguerite R. Hertz.....	237
The effect of wide differences in the education of parents upon the behavior of their children. Polly Bouck.....	255
The reliability of anthropometric measurements taken on eight- and nine-year-old white males. Howard V. Meredith.....	262
Care of primary teeth. R. C. Willett.....	273
The effect of varying verbal instructions on the motor responses of preschool children. Sue Cook McClure.....	276
Developmental sequences in name writing. Gertrude Hildreth.....	291
Rorschach test norms of young children. Dagny Sunne.....	304
